WORK EXPERIENCE

Iiinigence LLC - Junior Developer

January 2023 - Current

As a Junior Developer, become involved with projects involving multiple languages. Working on backend implementation using Django as well as using my frontend experience in Next.js to aid with integrations.

Iiinigence LLC - Intern Developer

September 2022 - January 2023

Worked on multiple projects as part of the fullstack team utilizing Next.js and Node.js to meet clients' design and architectural demands. Learned to cooperate and work with development teams on both sides of the isle.

PROJECTS

TMDB Movie Catalog

Front-end web application that utilizes the TMDB API to fetch movie metadata, complete with categories and search functionality.

E-Commerce Application

Full-Stack E-Commerce application with a crypto payment system built using NextJS and an Express backend, deployed on a VPS using docker containers.

Monopoly Deal

A digital version of the famous Monopoly Deal card game I created so my friend and I could play even when we are not together.

EDUCATION

Jiangsu University, China— *Computer Science*
